

Lavender Essential Oil

Product Summary

Lavender essential oil is known as the most popular and versatile essential oil. It is steam distilled from *Lavandula angustifolia*, a perennial, busy shrub with a flowery top. The many properties of lavender essential oil contribute to a vast range of usage. It is highly regarded as an antiseptic, anti-inflammatory, for skin care, or as a lovely fragrance.

Product Story

Traditionally used to treat burns, lavender is one of history's most celebrated and versatile essential oils. In ancient Greece, Pedanius Dioscorides, a physician, pharmacologist, and botanist, extolled the medicinal qualities of lavender. Greeks also used lavender as a perfume. The Romans used lavender in their baths for washing, for its healing and antiseptic qualities, and to deter insects. The Egyptians used lavender as an ingredient in incense and perfume. Queen Elizabeth I used lavender as a tea to treat her frequent migraines.

Following a laboratory explosion that severely burned his arm, a French scientist named Rene Gattefosse was the first modern scientist to document lavender's ability to promote tissue regeneration.

Today, we use lavender as a tea, to dress wounds, to induce sleep, ease depression, and reduce stress. Lavender oil is one of the safest essential oils and can be used in full strength on the skin. The benefits of lavender essential oil are limitless. As we continue to study lavender, additional usage and efficacy is identified.

Primary Benefits

Lavender essential oil:

- + Balances and normalizes body functions*
- + Promotes tissue regeneration*
- + Speeds up wound healing*
- + Cleanses cuts, bruises and, skin irritations*

Frequently Asked Questions

Q What is the difference between lavender and lavandin?

A Lavandin is a hybrid plant developed by crossing true lavender with spike lavender (Lavandula latifolia). Lavandin is most commonly used to sterilize animal cages throughout Europe. Lavandin has similar calming effects as lavender but is slightly harsher.

Q Is lavender essential oil safe for children?

A Lavender is generally safe for children. It has traditionally been used to calm small children and babies. However, you should always consult with your child’s healthcare practitioner prior to use.
